SUMMARY

Full Stack MERN Developer with 1+ year of experience delivering scalable web applications for diverse clients. Specialized in building production-ready e-commerce platforms, real-time communication systems, and AI-integrated solutions. Proven track record of deploying 4+ complete MERN applications with user authentication, RESTful APIs, and role-based access control. Strong foundation in UI/ UX design principles with ability to translate client requirements into polished, user-centric products.

EDUCATION

Bachelor of Software Engineering 02/2022 – 02/2026
COMSATS University Islamabad, Pakistan
CGPA: 3.28

PROFESSIONAL EXPERIENCE

Full Stack Developer (Next.js, Django) 02/2026 – Present | Islamabad
Creative Connect Advertising LLC 🔗

- Collaborated in building a comprehensive business management platform using Next.js and Django for an advertising and printing services company, featuring dual-panel architecture with a customer-facing interface and internal CRM system.
- Implementing a real-time design editor with live preview and automated print-ready file generation, integrated with Django REST API for order tracking from design to delivery.

Full Stack Developer (MERN) 01/2025 – 01/2026 | Remote
Fiverr & Independent Clients 🔗

- Developed and deployed 4+ production-ready platforms for clients using MERN Stack, including e-commerce systems with full product management, JWT-authenticated APIs, and role-based dashboards.
- Collaborated directly with 5+ clients through requirements gathering to post-launch support, maintaining 100% client satisfaction rate.

UI/UX & Frontend Development Intern 06/2024 – 09/2024 | Remote
Internee.pk & InternnCraft (Remote) 🔗

- Designed complete mobile and web UI/UX for 3 platforms including a freelancing marketplace and e-commerce redesign, streamlining checkout flow from 5 to 3 steps.
- Developed 5+ responsive websites using HTML5, CSS3, and JavaScript with cross-browser compatibility and mobile-first performance optimization.

TECHNICAL SKILLS
