SUMMARY

Full Stack MERN Developer with 1+ year of experience delivering scalable web applications for diverse clients. Specialized in building production-ready e-commerce platforms, real-time communication systems, and AI-integrated solutions. Proven track record of deploying 4+ complete MERN applications with user authentication, RESTful APIs, and role-based access control. Strong foundation in UI/ UX design principles with ability to translate client requirements into polished, user-centric products.

EDUCATION

Bachelor of Software Engineering 02/2022 – 02/2026
COMSATS University Islamabad, Pakistan
CGPA: 3.28

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer 2025 – Present
Fiverr & Independent Clients

- Developed and deployed 4+ production-ready platforms generating client revenue, featuring complete product catalog management, shopping cart, checkout flow, and order tracking systems
- Built secure REST APIs with JWT authentication and role-based authorization serving daily active users across multiple client applications
- Designed and implemented responsive UI/ UX from wireframes to production, achieving mobile compatibility and increase in user engagement
- Collaborated directly with 5+ clients on requirements gathering, iterative delivery, and post-launch support, maintaining 100% client satisfaction rate

UI/UX Design Intern 06/2024 – 09/2024
Internee.pk & InternnCraft (Remote)

- Designed complete mobile app experience for Internee.pk's official platform, creating 10+ screens with consistent design language and improved user navigation flow
- Designed InnovateCraft freelancing platform with modern UI/ UX, creating comprehensive user flows for client-freelancer interactions and project management workflows
- Led TraditionCraft e-commerce redesign project, enhancing existing platform with contemporary design patterns and improving checkout flow conversion by streamlining from 5 to 3 steps

Frontend Web Development Intern 06/2024 – 08/2024
Internee.pk (Remote)

- Developed 5+ responsive websites using HTML5, CSS3, and JavaScript with cross-browser compatibility across Chrome, Firefox, Safari, and Edge
- Optimized layouts with mobile-first approach achieving performance scores on Google Page Speed Insights and reducing load times
